Advanced Connectivity Features

The LEC-3010 is designed for high surge ESD automation environments, such as substations, generation SCADA applications and building automation. Featuring a fanless DIN-Rail design, the LEC-3010 easily integrates into any factory IA deployment scenario.

With six serial communication ports, 4 GbE LAN, 2 USB and DIDO, the LEC-3010 has a rich IO array. There is also a CompactFlash socket for storage.
